

Hot Air, Cold Air

Experiment Sheet

Predictions

4) What do you think will happen to the balloon when it is placed in the warm water?

5) What do you think will happen to the balloon when it is placed in the cold water?

Results

1) What happened to the balloon when it is placed in the warm water?

2) What happened to the balloon when it is placed in the cold water?

3) Why do you think the balloon reacted like it did?
